PROFESSIONAL SUMMARY

Data Science and Informatics practitioner and educator with 5+ years of industry experience and 2+ years of university teaching experience. Strong background at the intersection of data analytics, digital technology, and business strategy, specializing in data-driven decision making, web analytics, digital data analysis, and information system development.

Served as Adjunct Lecturer in the Digital Business Study Program at UIN Salatiga and as Technical Instructor at HariSenin and DailySEO Bootcamps, designing data-driven curricula, delivering lectures, and mentoring students through real-world industry case studies. Holds a Master's degree in Informatics (GPA 3.85) from Universitas Muhammadiyah Surakarta with a quantitative thesis on semantic content and structured data impact on search engine visibility.

EDUCATION

2022-2024 | UMS | Master in Informatics (GPA 3.85)

Thesis: The Impact of Semantic Content and Schema Markup on Website Performance Visibility in Search Engines

- Quantitative research: web performance data analysis, digital metric measurement (organic traffic, SERP visibility, click-through rate), pre-post comparative analysis, and data visualization
- Research focus: Web analytics, data-driven optimization, semantic analysis, structured data

2014-2018 | UMS | Bachelor in Informatics (GPA 3.35)

Thesis: Web-based E-Voting System for IMM Surakarta Branch Conference

- Database design, voter data management, MySQL and PHP-based system development
- Focus: Database systems, web programming, information systems

TEACHING EXPERIENCE

Sep 2024 - Feb 2025 | UIN Salatiga | Adjunct Lecturer - Digital Business

- Taught courses within the Digital Business Study Program, developed teaching materials, and assessed student learning outcomes
- Integrated data-driven industry case studies into coursework to bridge theory and practice
- Applied project-based learning using real-world data from the industry

Feb 2025 - Present | HARISENIN.COM | Technical SEO Instructor

- Delivered data-driven optimization and technical SEO curriculum as part of a digital marketing bootcamp program
- Topics included: data analysis using Google Analytics, site auditing, and keyword data research

Mar 2024 - Feb 2026 | DAILYSEO ID | Technical SEO Instructor

- Delivered structured data-driven SEO curriculum for beginner and intermediate practitioners
- Topics: data analysis for SEO, log file analysis, Core Web Vitals analytics, structured data/schema
- Mentored participants through real-world data case studies and live audit exercises

INDUSTRY EXPERIENCE

Mar 2026 - Present | YCP Group | SEO & Data Performance Analyst

- Lead data-driven SEO and GEO initiatives to strengthen brand visibility across Google Search, AI Overviews, ChatGPT, and Perplexity
- Conduct data mining of keywords, audience research, and entity analysis to identify strategic opportunities
- Produce performance data reports using Google Analytics 4, Google Search Console, and Looker Studio
- Manage data pipelines from multiple sources to support strategic decision-making

Aug 2023 - Mar 2026 | DAILYSEO ID / DLYS | Data Analyst / SEO Consultant

- Managed data-driven strategies for clients across B2B consulting, e-commerce, and government sectors
- Conducted market data mining, topic clustering, and keyword gap analysis
- Produced monthly data reports with strategic, data-driven insights and recommendations
- Developed data visualization dashboards using Looker Studio for KPI monitoring

Jan 2021 - May 2023 | YCP Solidiance | Senior Data & SEO Analyst

- Designed and implemented data-driven SEO strategies to increase brand visibility and organic performance
- Conducted data-based content audits and technical audits to identify optimization opportunities
- Managed content calendars and CMS workflows using an analytical approach

Mar 2020 - Dec 2021 | BPOM RI (Indonesian FDA) | Web Developer

- Built and developed the BPOM RI whistleblowing system information platform
- Managed database development and collaborated with third-party vendors on system development

LEADERSHIP AND ORGANIZATIONS

- Instructor - IMM Central Java (2018)
- Head of Member Development - IMM Surakarta City Level (2017-2018)
- Chief Executive - IMM Surakarta Faculty Level (2016-2017)

RESEARCH INTERESTS AND COURSES

Research Interests:

- Data Science for Digital Marketing and E-commerce
- Machine Learning for SEO and Content Optimization
- Natural Language Processing (NLP) for Search Intent Analysis
- Data Visualization and Dashboarding
- Recommendation Systems and Personalization
- Semantic Analysis and Knowledge Graphs
- AI/LLM Optimization and Generative Engine Optimization
- Web Analytics and User Behavior Analysis

Courses That Can Be Taught:

- Data Science and Analytics: Introduction to Data Science, Statistics for Data Science, Digital Data Analytics, Data Visualization, Data Mining and Data Warehouse, Database and Data Structures
- Informatics and Programming: Fundamentals of Programming, Web Programming, Management Information Systems
- Applied Data Science and Digital Business: Digital Marketing Analytics, SEO and Search Data Analysis, E-commerce Data Analytics, Data-driven Decision Making, Technopreneurship

SKILLS

Data Science & Analytics: GA4, Google Search Console, Looker Studio, Data Mining (Ahrefs, SEMrush), Log File Analysis, Data Visualization, Dashboarding, KPI Tracking

Programming & Database: HTML, CSS, PHP, MySQL, SQL Queries, Web Development

Teaching & Curriculum: Curriculum and Syllabus Design, Project-based Learning, Case-based Learning, Student Mentoring and Supervision

Research Methods: Quantitative Research, Data Collection and Processing, Statistical Data Analysis, Research Report Writing

Tools: GA4, Google Search Console, Looker Studio, Ahrefs, SEMrush, Screaming Frog, MySQL, WordPress, MS Office

LANGUAGES

- Indonesian: Native
- English: Professional Working Proficiency
